Customer Journey Map — Real Estate Analyst

Stage	Actions	Emotions
Awareness	Analyst realizes spreadsheets are too slow to spot pricing trends.	Frustration with manual comparison.
Consideration	Analyst learns that a Tableau dashboard could consolidate sales, age, and renovation data.	Curiosity, cautious optimism.
Onboarding	Analyst connects the housing dataset to Tableau and explores the pre-built dashboard.	Relief at a faster workflow.
Regular Use	Analyst filters by renovation status and house age to prepare weekly market reports.	Confidence in data-backed conclusions.
Advocacy	Analyst shares dashboard insights with the marketing team and recommends the tool.	Pride in improved decision-making.
